WORK EXPERIENCE

React JS/Node JS Developer
La Net Team Software Solutions Pvt. LTD

01/2019 - 07/2022   *Surat, Gujrat*

Service-based company

Achievements/Tasks

- Worked as a full-stack developer on a product which is for **hospital management**. The front end is developed in Next Js with the Antd ui library. The backend is developed in Node Js and Nest Js. Prisma ORM is used with MySQL and GraphQL queries for the database. (https://pabau.com/)

- Worked on the **Data Analytics** project as well in which I created various charts in react.js with the D3.js and highchart. (https://nantucketdataplatform.com)

- Worked on a project called **SlackBot** in node js with firebase database where I used the slack API for creating/Broadcasting leads in lead bot slack channel whenever visitors visit the site as well as create the slack UI that can work as a command in Slack.

Full stack developer
Freelancing

08/2022 - Present

Achievements/Tasks

- Worked on the project as a senior frontend developer in a cyber security company called **Emgage** and developed many workflows and widgets. (https://emgage.com/)

- Worked on the **Tender management** project as a MERN stack developer in which I created the various endpoints routes in node js and also created the various UI pages.

- Worked on the project as a front-end end developer in a project called **CIMA.** It is a disaster recovery management application based on React and I developed the Project lead module with UI and APIs integration.
